Remote Work Policy

Employees may work from home up to 3 days per week. Core hours are 10am to 3pm, during which all team members must be online and reachable.

A home office stipend of 200 euros per year is available for equipment such as chairs, monitors, and keyboards. Claims must include a receipt.

All remote work must go through the company VPN, and two-factor authentication is mandatory for every login. Public Wi-Fi must not be used for company systems.

Remote workers must attend the monthly team day in the office. Travel expenses for that day are reimbursed at the standard mileage rate of 0.45 euros per kilometre.
